SUMMARY

With 3+ years of experience, I am a Graphics & UI/UX Designer focused on creating clean visuals and user-friendly digital experiences. Skilled in Figma and Sketch, I design graphics and interfaces that balance aesthetics, usability, and consistency. I enjoy turning ideas into practical designs that improve user experience and visual appeal.

EXPERIENCE

Graphics & UI/UX Designer

Next Generation Circle ↗

02/2023 - Present

Next Generation Circle is a leading software development company specializing in web environments, mobile app development, and Microsoft Technology Integration.

- Created and maintained UI standards for multiple websites, including prototyping to ensure consistency and usability across all platforms.
- Worked closely with developers to implement new features, maintain site usability, and ensure seamless integration of design and development.
- Designed and developed custom animations for websites and mobile applications to enhance user engagement and experience.
- Utilized design tools such as Figma, Adobe XD, and Photoshop to create prototypes, high-fidelity designs, and design systems.

Graphic Designer (Freelance)

SMEDA Regional Office KP ↗

2024 - 2025

- Ensured designs were print-optimized (color modes, resolution, bleed, and layout accuracy)
- Delivered projects within tight deadlines while maintaining high design quality
- Made revisions based on client feedback to achieve final approval
- Assisted with printing coordination and quality checks to ensure accurate final output.

Junior Graphics & UI/UX Designer (Hybrid)

Tritech Solutions (Private) Limited ↗

12/2023 - 02/2024

Tritech Solution is a creative technology company that specializes in graphics design, UI/UX design, and web and mobile development.

- Worked on multiple projects, designing and developing visually appealing graphics, intuitive UI/UX experiences, and responsive web and mobile applications.
- Demonstrated ability to work independently in a remote setting, managing multiple projects and deadlines with ease.
- Utilized design tools such as Figma, Adobe XD, and Sketch to create prototypes, high-fidelity designs, and design systems.
